

Colorado Springs Rod & Custom

September 2021 Newsletter

Colorado Springs Rod & Custom was well represented at Bob & Sherry Weaver's Hot Rod Roundup, Saturday Oct 3rd, at The Church on The Ranch.

Twelve of our Club members attended and a couple "friends of the Club" also. Perfect weather, great turnout of cars with Flying W Ranch and friends music and good food prepared by the church ladies for sale.

Upcoming Events:

Last Saturday, Oct 9th Joel Davis Swap Meet in Canon City. 402 Valley Road. Go South on 2nd Street. Spaces are \$25, \$50 if trailer. Sounds like a food truck will be on site.

Last Sunday, Oct 10th Marty said there was a city cruise starting at noon or 12:30 at Rampart Supply at 1801 North Union ending at the new Guiseppe's restaurant at the train station.

Oct 17th, Sunday, Bob Collins and Pat have a Fall Cruise planned of about 2 ½ hours . We will meet at the **Home Store** at Platte and Academy Blvd and leave at 10am up US 24. Then North on Elbert Hwy to Elizabeth. Take Founders Parkway West to Santa Fe Dr to Sedalia turnoff South, winding up in Palmer Lake for lunch. Then on to home. There will also be a poker run with a \$100 prize.

Remember, civilian cars are welcome so talk your spouse /significant other in to a fun time in the Colorado sun!

Nov 15th, Club Annual Turkey Run, Marv Shughart agreed to put it together again this year. Last year Laura and he did a great job and this year should be no exception! Club approved \$200 in prizes, turkeys, whatever. We usually have a toy collection for Ft Carson Santa's Workshop and need cooperation bringing toys for soldiers families. More details to follow.

Pat has been working diligently to put together a **Club Christmas Party**. We decided to have it on Tuesday December 7th in a separate room at the Patty Jewett Golf Course. It will be a Buffet Dinner with 3 menu choices, including prime rib. We need to have a guarantee one week in advance SO MARK YOUR CALENDARS NOW. We follow our usual format for the party... gifts, raffles, Member of Year Award and fun. This is never an easy task each year with everyone else trying to schedule a party and limited venues, so many thanks to Pat for her efforts!

Taking a little editorial license, here's a quick shot from Minnesota this Summer for you to enjoy. The Eagle is very special, 582 lawnmower blades, some scrap steel and 2500 hours labor by our famous sculptor. This is his 101st big metal sculpture.
